# L SERIES

AVOCOR L SERIES DATASHEET

21:9

5K ULTRA HD

105" | Ultrawide 21:9 interactive touch and non-touch display options

OVERVIEW

Introducing Avocor's L Series of collaboration displays in a unique aspect ratio of 21:9. Available in two options: an interactive touch display and a non-touch display, ensuring a solution for every business need.

The L Series has been designed to increase the workable area within a display without altering the ideal height of traditional 16:9 displays. This expansive new width will help users better engage and showcase several application windows at once, enabling them to present and interact with more content simultaneously.

The non-touch display option features a beautiful industrial design perfect for enhanced Microsoft Teams Rooms (eMTR), with the touch display option boasting a sleek brushed aluminium design targeting large rooms used for interactive meetings and training.

IDEAL FOR:

Board rooms | Conference rooms

Microsoft Teams Rooms

Training rooms

SOLUTION
Highlights

Unique 21:9 aspect ratio for increased usable area, all on a 105" display.

Stunning 5K resolution for crisp image detail and annotation accuracy.

Ultra-thin bezel with edge-to-edge glass for a sleek design, with the interactive variation supporting 40 points of touch with PCAP technology.

Integrated occupancy sensor for real-time room information.

Avocor UiQ - smart touch enabled dynamic user interface.

FUSE - our free-of-charge cloud-based display & software management platform for AV/IT Managers.

DisplayNote Montage

Montage - wireless screen sharing from any device and instant white-boarding capabilities.
