9 REASONS

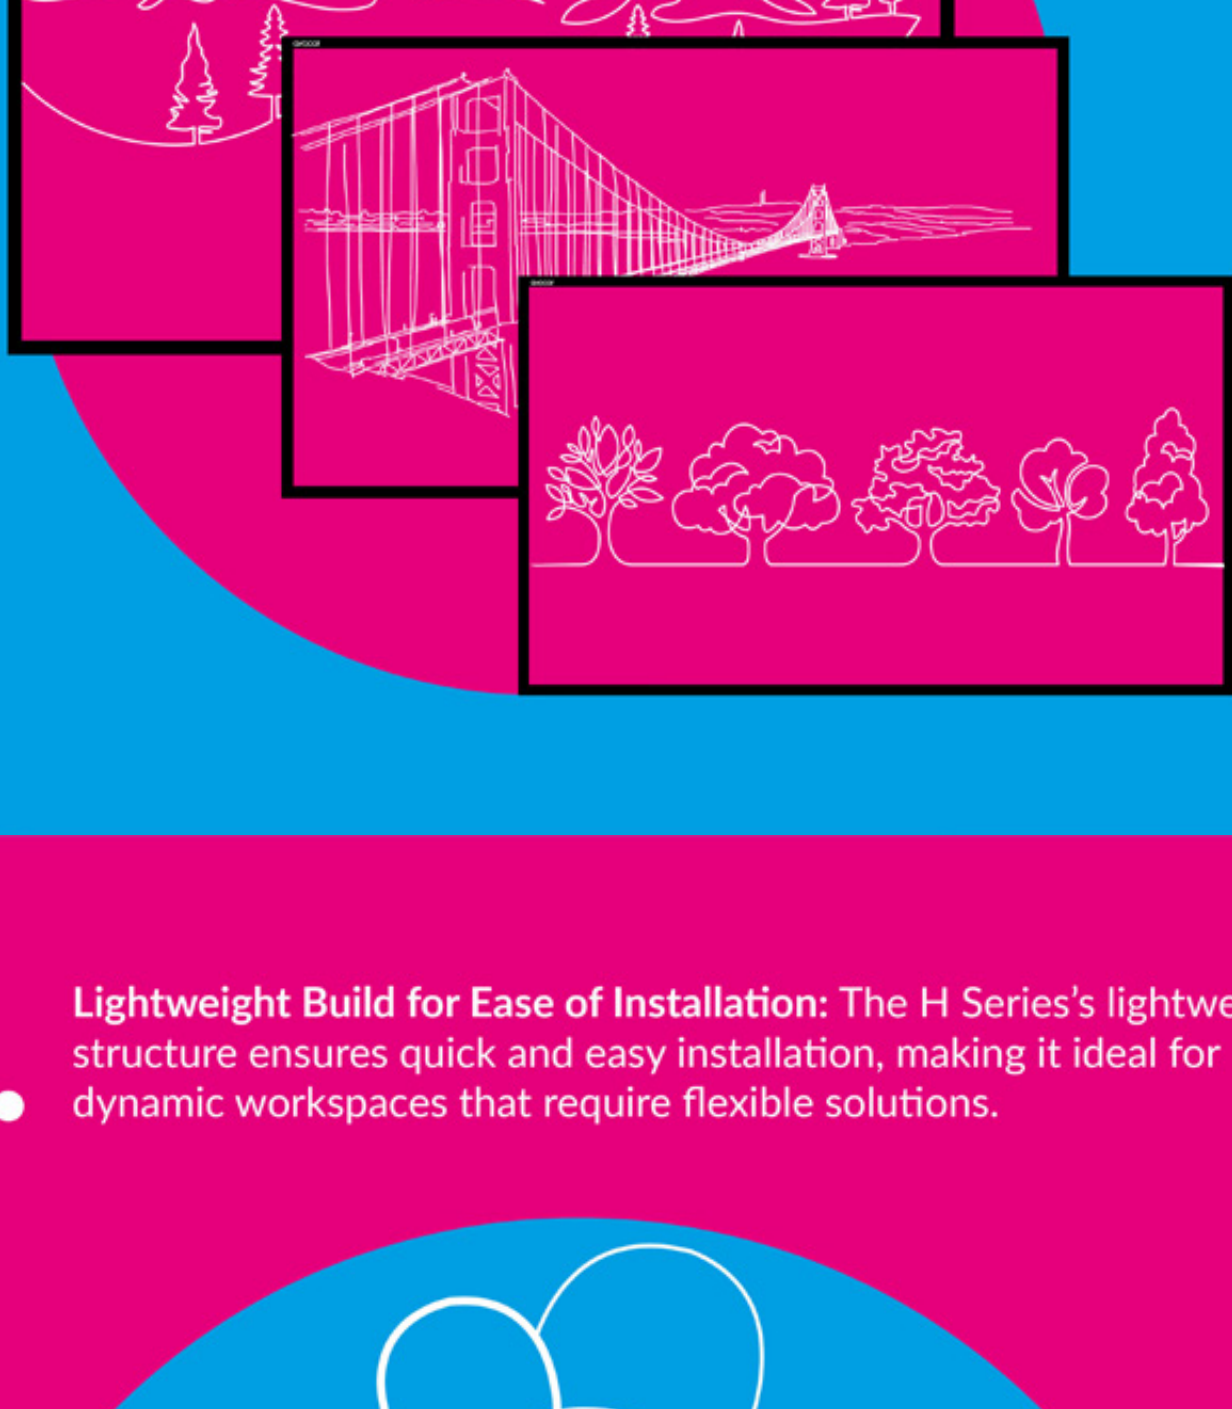

To Choose the H Series by Avocor

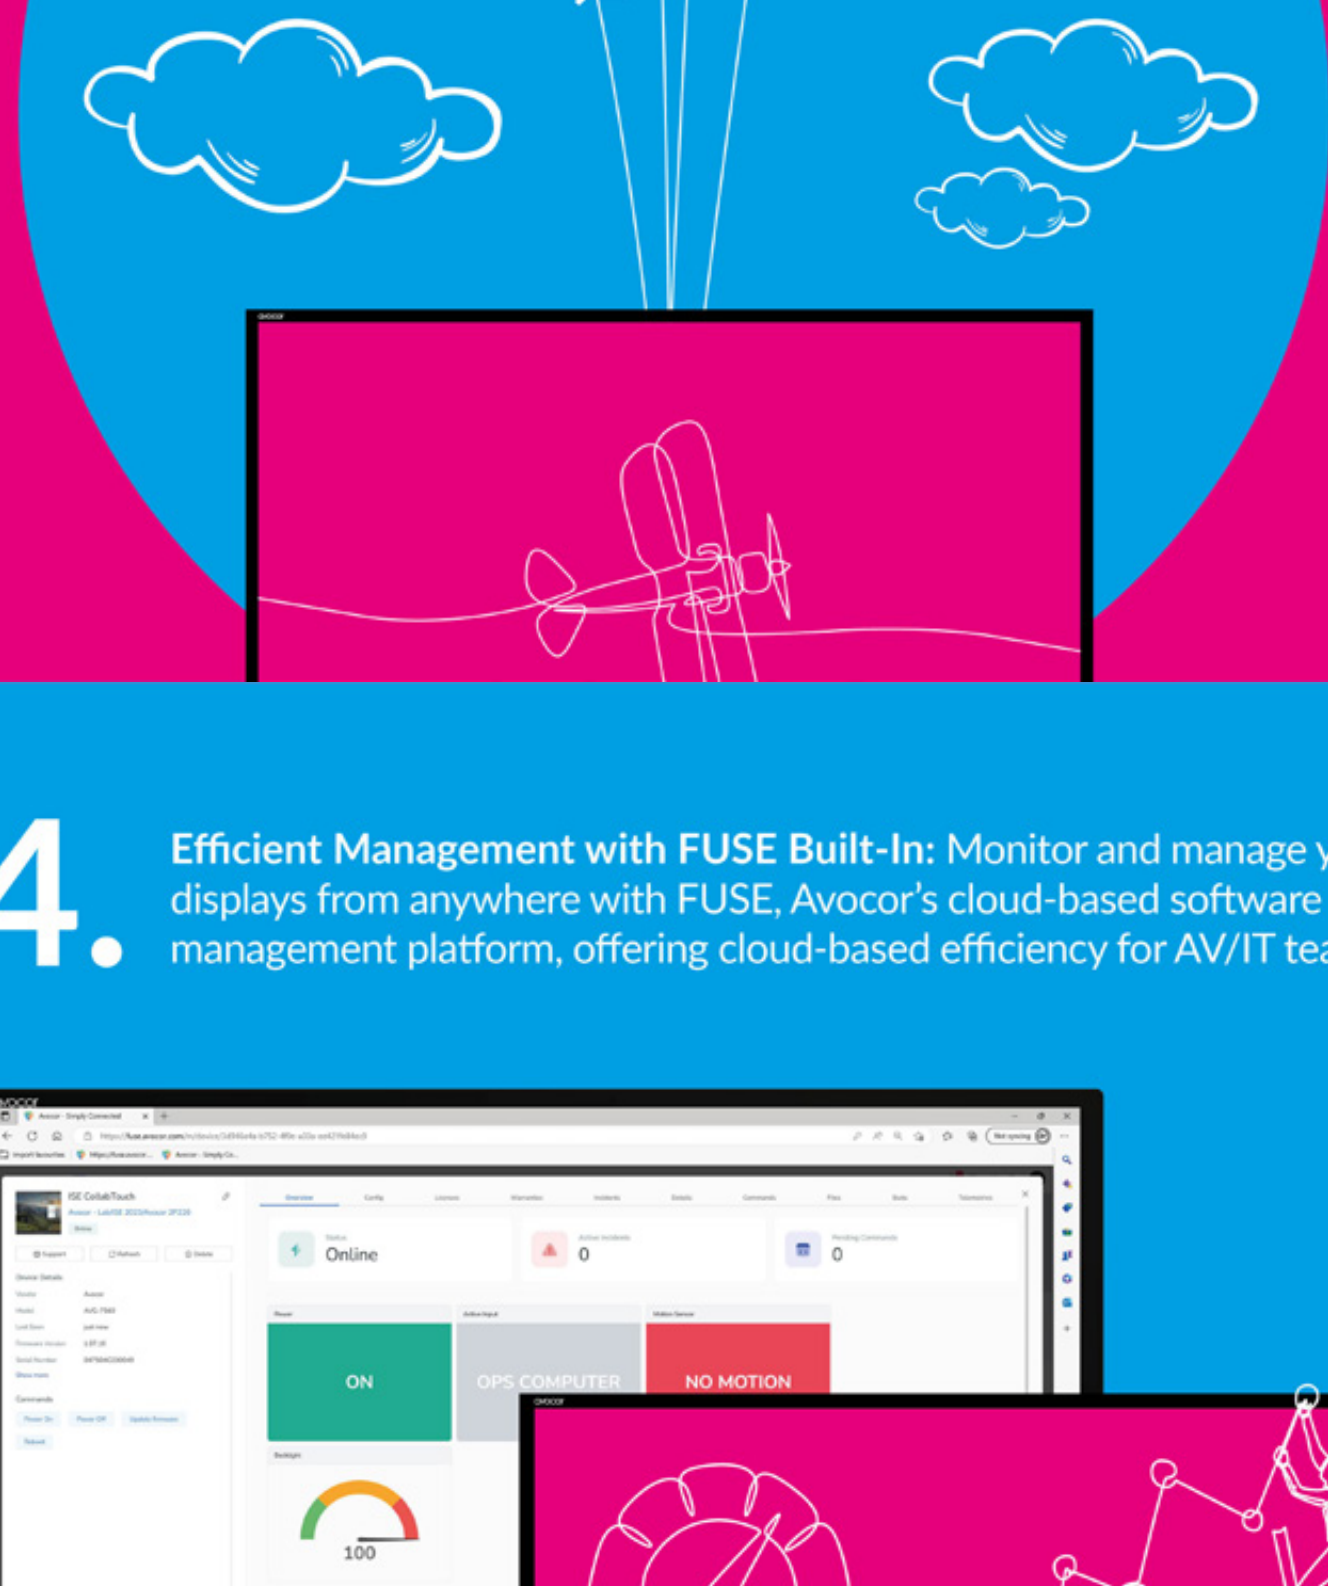

1. Elegant and Slim Design: The H Series features an ultra-thin bezel with edge-to-edge glass, providing a sleek and contemporary look that enhances any meeting room's aesthetic.

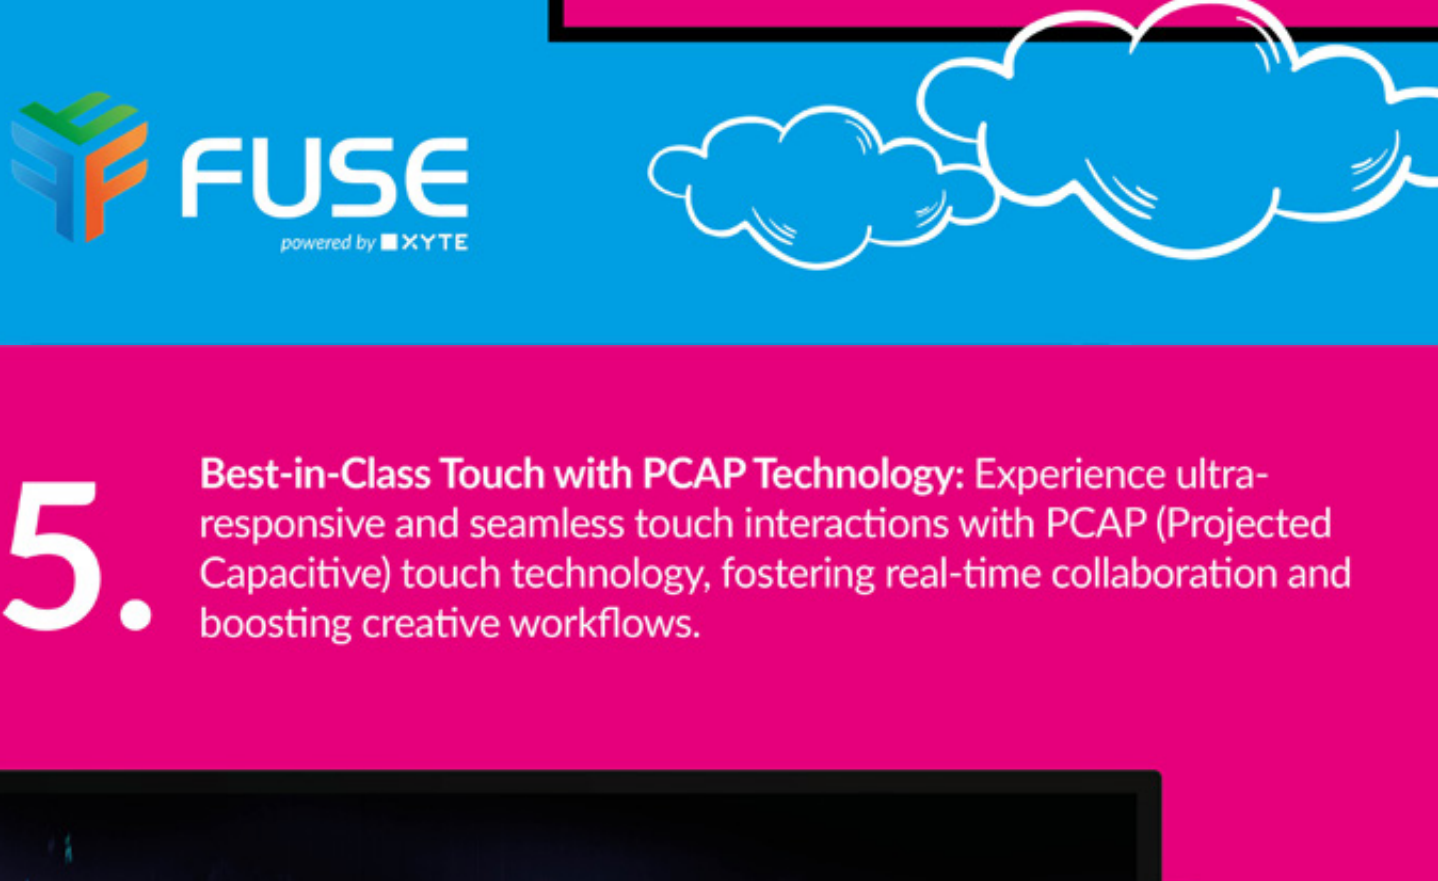

2. Cost-Effective Scalability: Available in 65", 75", and 86" models, the H Series offers affordable options for organizations seeking to cultivate a more connected and collaborative workforce without breaking the budget.

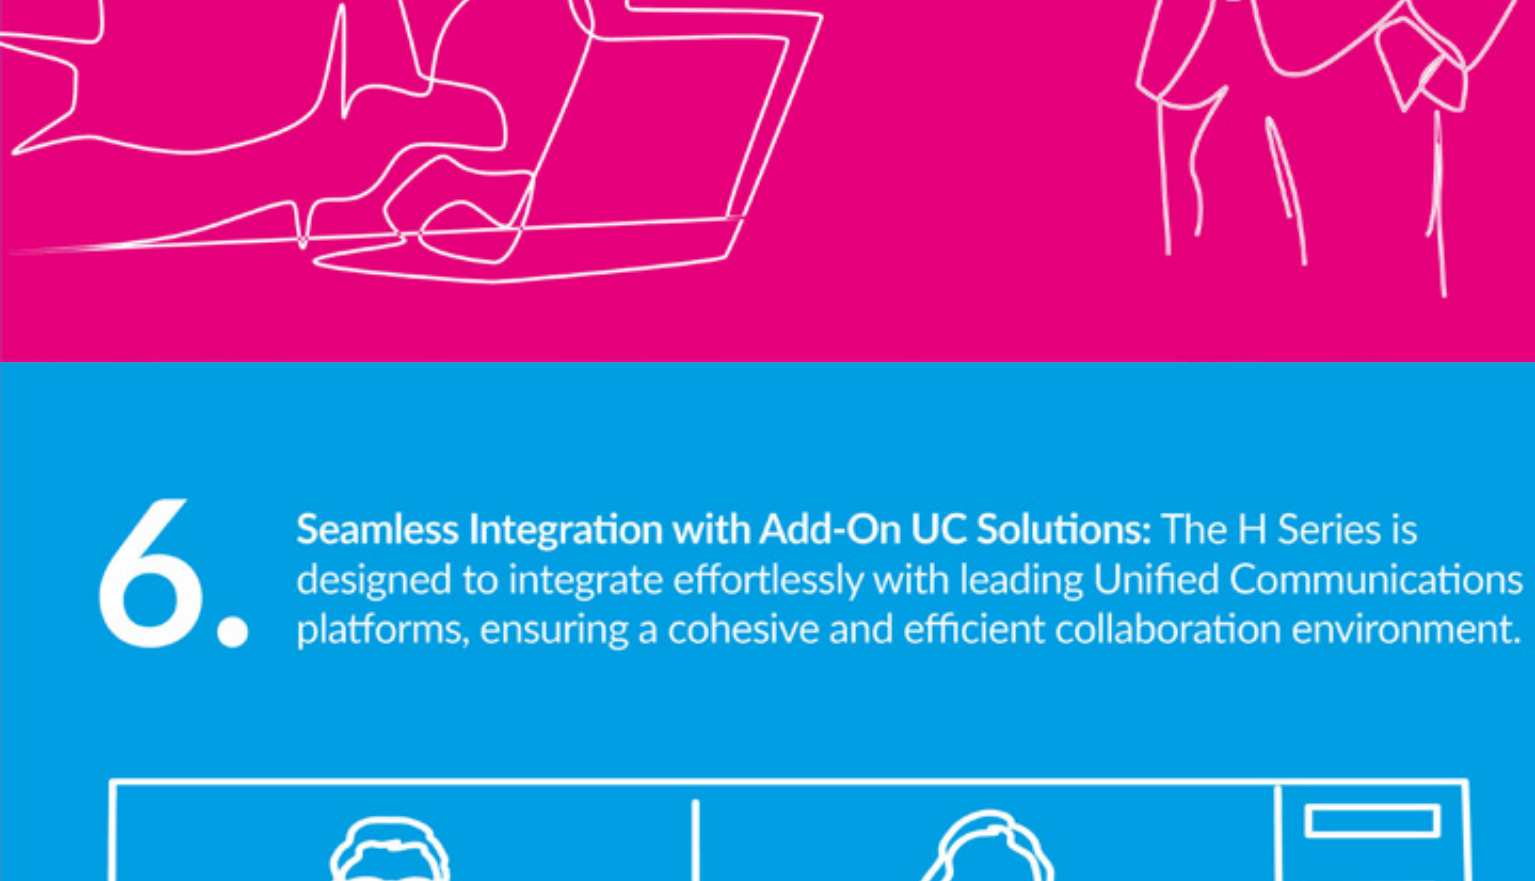

3. Lightweight Build for Ease of Installation: The H Series's lightweight structure ensures quick and easy installation, making it ideal for dynamic workspaces that require flexible solutions.

4. Efficient Management with FUSE Built-In: Monitor and manage your displays from anywhere with FUSE, Avocor's cloud-based software management platform, offering cloud-based efficiency for AV/IT teams.

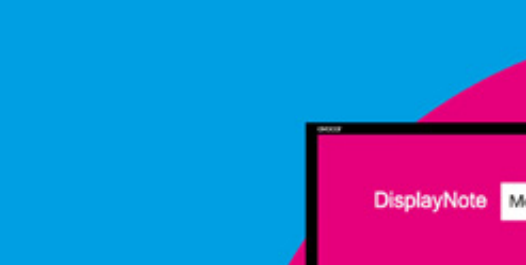

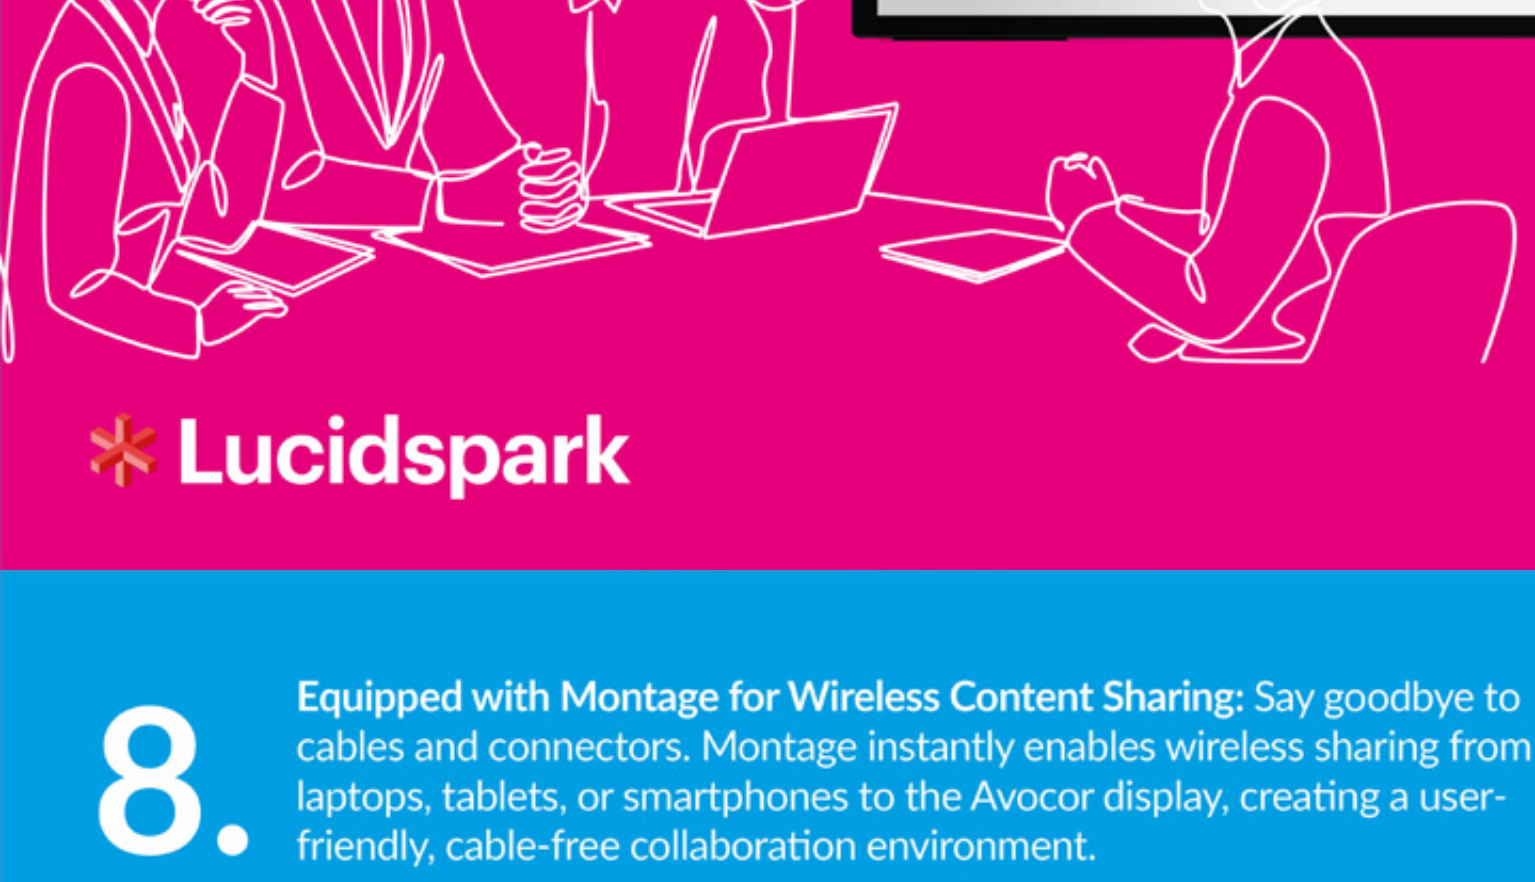

5. Best-in-Class Touch with PCAP Technology: Experience ultra-responsive and seamless PCAP interactions with PCAP (Projected Capacitive) touch technology, fostering real-time collaboration and boosting creative workflows.

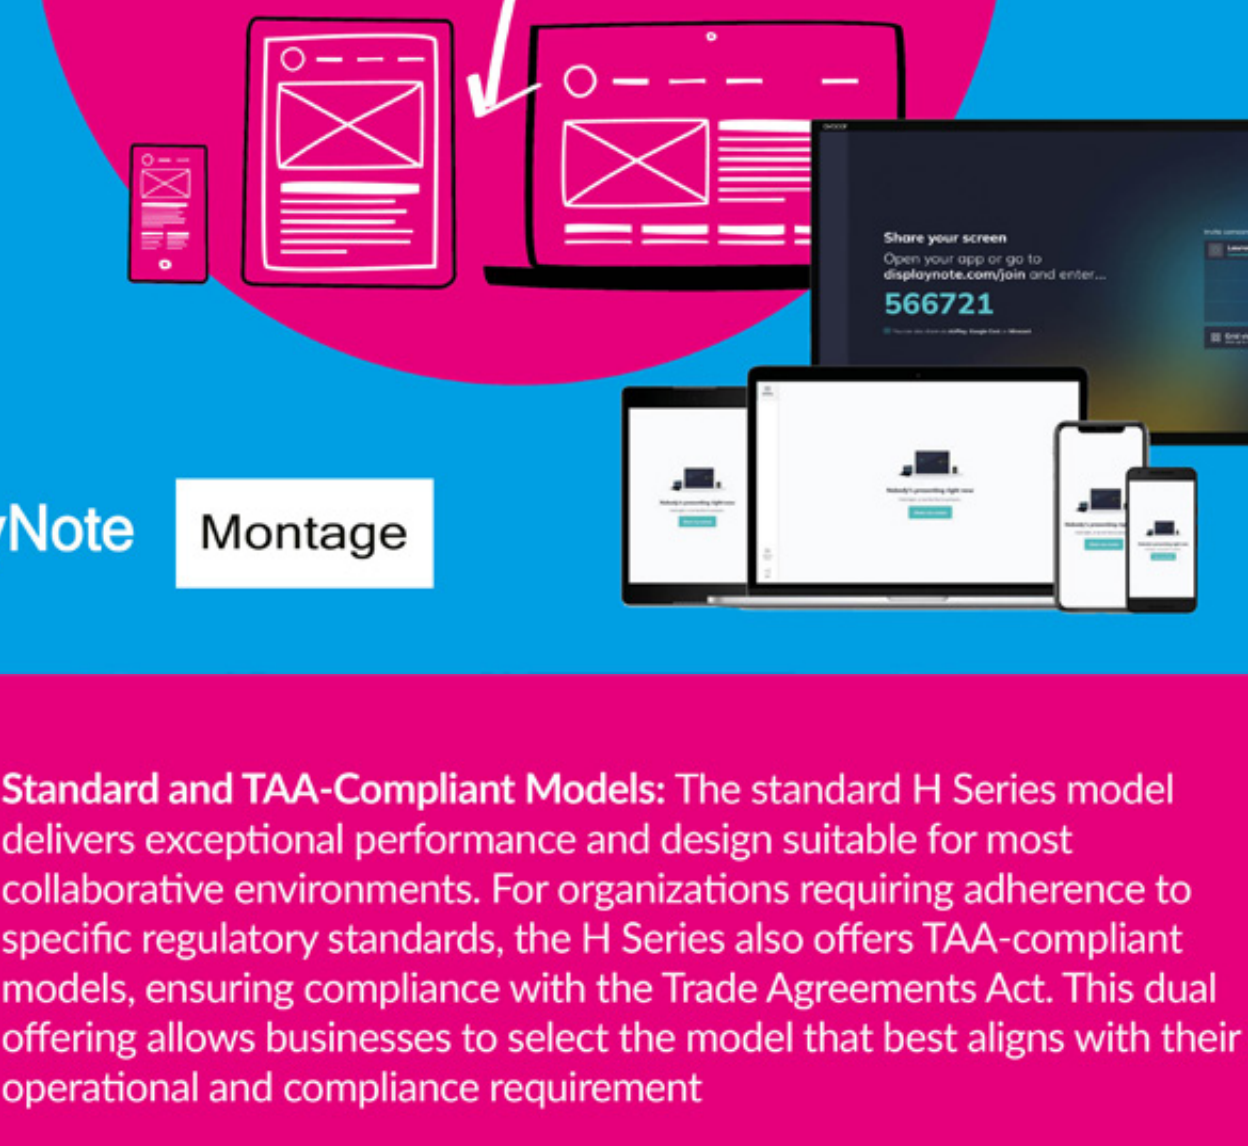

6. Seamless Integration with Add-On UC Solutions: The H Series is designed to integrate effortlessly with leading Unified Communications platforms, ensuring a cohesive and efficient collaboration environment.

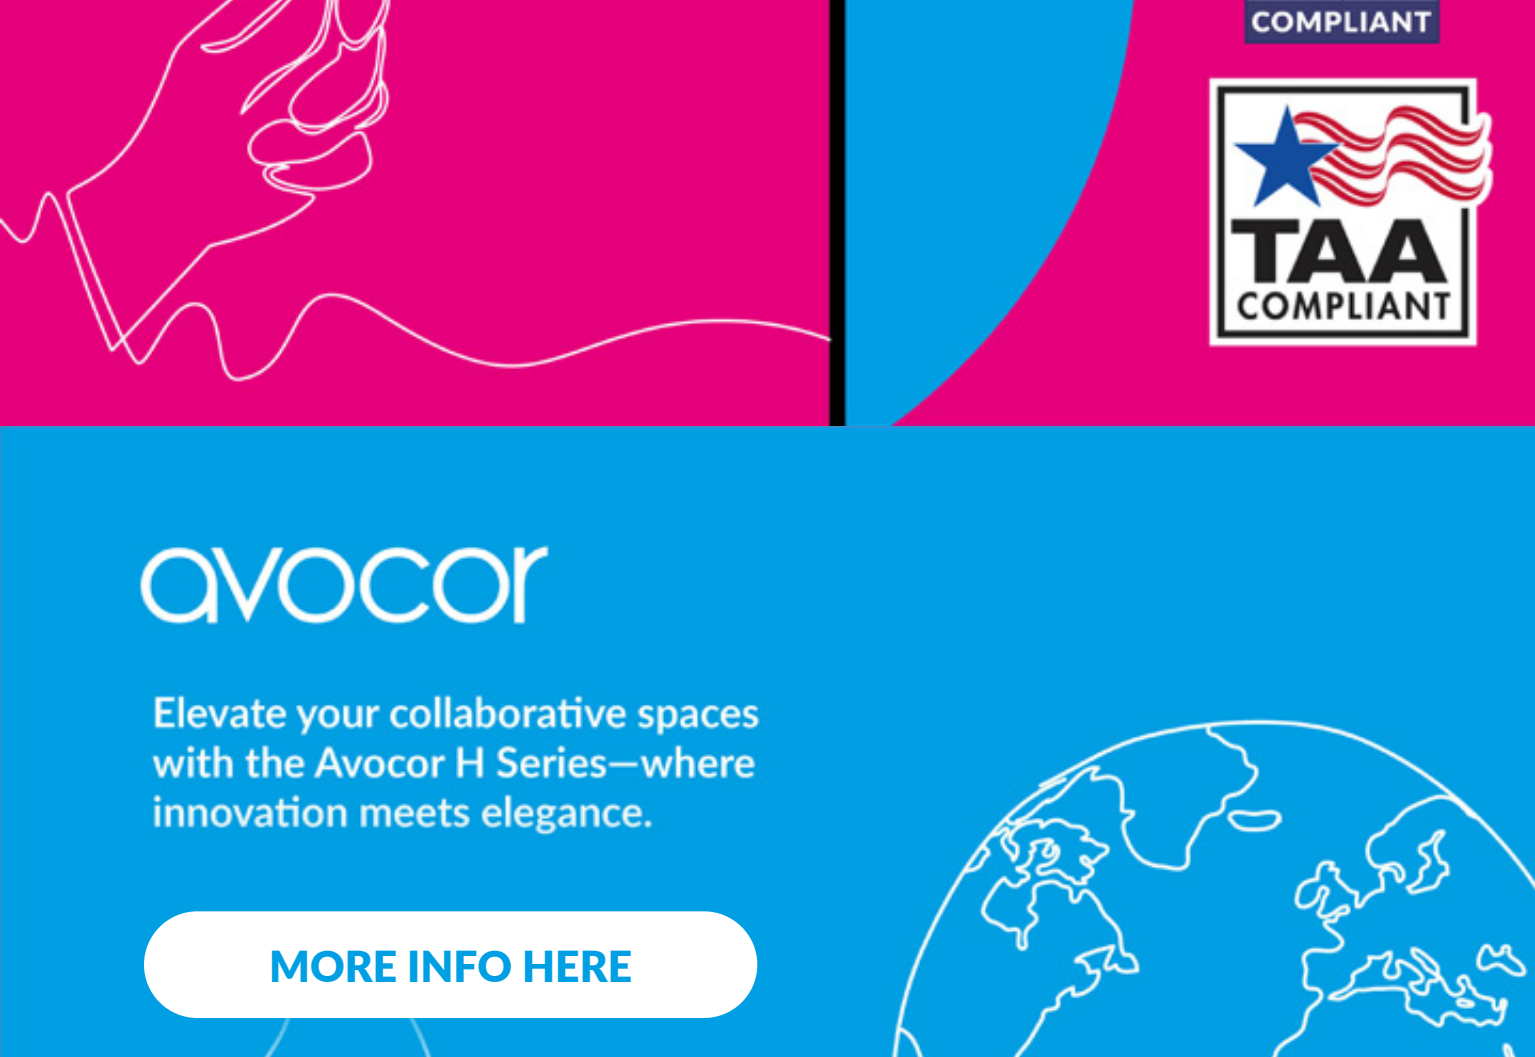

7. Integrated Lucid Whiteboarding Software: Enhance brainstorming sessions with the built-in Lucid whiteboarding software, providing intuitive tools for dynamic and engaging visual collaboration.

8. Equipped with Montage for Wireless Content Sharing: Say goodbye to cables and connectors. Montage instantly enables wireless sharing from laptops, tablets, or smartphones to the Avocor display, creating a user-friendly, cable-free collaboration environment.

9. Standard and TAA-Compliant Models: The standard H Series model delivers exceptional performance and design suitable for most collaborative environments. For organizations requiring adherence to specific regulatory standards, the H Series also offers TAA-compliant models, ensuring compliance with the Trade Agreements Act. This dual offering allows businesses to select the model that best aligns with their operational and compliance requirement.
